## NextGen Features

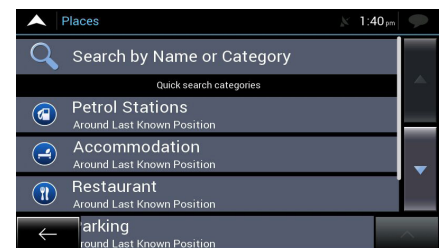

### Customised User Interface

The software package in this Navigation system is called NextGen and it's known to be intuitive and extremely easy to use. The user interface is clear, easy to read and the menus are simple to navigate.

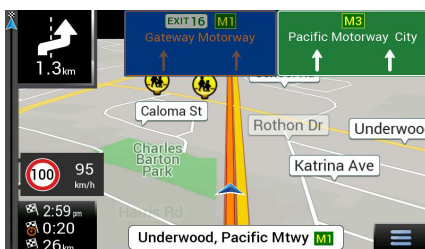

### "Points of Interest" (POI)

You now have access to the extensive "Points of Interest" database. Making it easy to find Petrol Stations, Emergency Services, ATMs and more along your route or close to your current location.

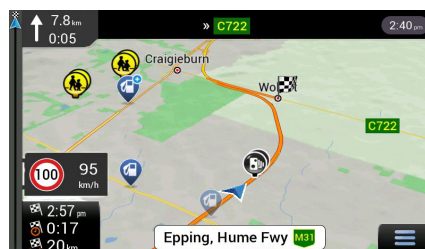

### Intelligent Search Function

The Intelligent Search Function allows for searching Points of Interest, Business Names, Restaurants, Petrol Stations, Hotels and much, much more!

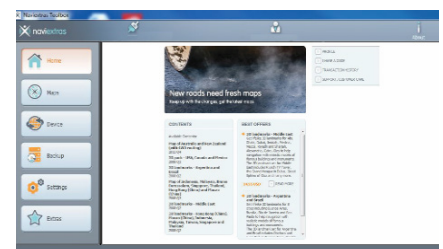

### Real Signpost Rendering

The Tunnel View, Highway Mode and Real Signpost Rendering makes your journey a breeze knowing exactly what to look for and where to go.

### Safety Proximity Alerts

For added safety, set Proximity Alerts. These alerts warn you of upcoming School Zones as well as Red Light, Fixed and Average Speed Cameras.

### Naviextras Toolbox

Have confidence, knowing you have the latest maps available with complimentary map updates for one year through the Naviextras Toolbox.

- Fully licensed Next Gen mapping
- 1 year free map updates
- 3 year warranty (12 month warranty on SD card)
- Integrates with Reverse Camera (If installed)
- 3D High Definition Navigation with map data for Australia and New Zealand.
- 2D or 3D map view with Smart Zoom and realistic display of 3D terrains and 3D landmarks

- Graphical user interface and voice guidance
- "Text-to-Speech" Function (TTS)
- Eco and Smart Route Planning
- Smart Zoom function at intersections and crossings
- The Trip computer can display up to three additional pieces of information. Choose between arrival time, journey time, speed, direction, height above sea level, etc.
- Visual and audible warning to indicate speed limits on major roads
